If a project is created under **Multi Style Purpose (MSP)**, the project specification should be displayed as **MSP (Multi Style Purpose)**.

Within the same project, each room can be created under different variants. For example, the Living Room may be created under the **Xpress** variant, and the Master Bedroom under the **Xpand** variant. In such cases, the respective variant name (**Xpress** or **Xpand**) must be displayed next to each room name, so that users can easily identify the variant assigned to each room.

The screenshot displays a software interface for managing a project titled "Mr. Yaswanth Singh - R3 (DeX-MSP-X1155)". The interface is divided into several sections:

- Material Specification:** A tab labeled "DeX - Xpress" is highlighted with a red box.
- Spaces:** A section containing six room cards, each with a variant name circled in red:
 - Living room** (Dry / Inexposed, TV Unit, 8 items, ₹87,389)
 - Master Bedroom** (Dry / Inexposed, Wardrobe, 4 items, ₹2,22,131)
 - Bedroom-2** (Dry / Inexposed, Wardrobe, 4 items, ₹1,38,207)
 - Kitchen** (Wet / Exposed, Kitchen Units, 9 items, ₹2,22,463)
 - Kitchen Loft** (Dry / Inexposed, Loft, 2 items, ₹92,075)
 - Utility** (Wet / Exposed, Vanity, 2 items, ₹67,688)
- Design Credits:** A summary showing Total ₹0, Used ₹0, and Available ₹0.
- Quotation Summary:** A detailed breakdown of costs:
 - Pricing Adjustments:** Enablement fee and discount apply to woodworks only. Enablement Fee (%) and Discount (%) are both 0.
 - Woodworks:** Subtotal ₹6,94,277, GST (18%) ₹1,24,970, Woodworks Total ₹8,19,247.
 - Services:** Subtotal ₹87,389, GST (18%) ₹15,730, Services Total ₹1,03,119.
 - Accessories:** Total (GST Inclusive) ₹65,505.
 - Line Items Subtotal:** ₹8,47,171.
 - Total GST:** ₹1,40,700.
 - Grand Total:** ₹9,87,871.

The Marked unit type showing two times , that confuse the user to select the correct unit

The marked unit type should display all three finishes—**Smooth, Glossy, and Designer Laminate**—under a single unit type. However, currently the same unit type is incorrectly split into two separate entries, with each entry showing different finishes. This issue is also applicable to the **Open Storage Unit (1mm)**, where the finishes should be consolidated and displayed under one unit type instead of being split.

When selecting the **Glide Line Wardrobe** under the **Dry Area room type** with **MR Grade and Glossy finish**, the description is currently displaying both **MR Grade and BWP Grade** specifications. However, the description should be dynamically generated based strictly on the selected **Room Type, Unit Type, and Finish**. In this case, since the room type is **Dry Area** and the selected finish is **MR Grade**, the description must show **only MR Grade specifications** and should not include BWP Grade details.

Activ

Discount logic automation: Discount must be auto-calculated only for Woodwork category line items.

Discount percentage applicability: Discount percentage (example: 15%) must be applied only to Woodwork line items.

Non-woodwork exclusion: Accessories, Services, Civil Work, Lighting, Stone, etc., must not receive any discount.

Non-applicable discount display: For Accessories and Services, the 'Amount After Discount' column must display 'Not Applicable'.

Total discounted amount calculation: Subtotal and Grand Total must be calculated based on discounted values for eligible items.

- **Retention must be auto-applied**

- Retention should be calculated automatically (as per your rule; example shows **₹20,000**).

- Retention must not be treated as an additional amount payable by the customer.

- **Retention must be deducted from the 3rd payment**

- The **3rd payment (Material Delivery / 40%)** should be reduced by the Retention amount.

- Expected:

- **Third Payment = (Total × 40%) – Retention**

- **Total payable must remain equal to Grand Total**

- The sum of all payment stages **must exactly match the final Grand Total** (inclusive of GST/discounts, whatever your system uses as final).

- Expected validation:

- **Advance + Second Payment + Third Payment + Retention = Grand Total**

- (Retention is **held back**, not collected in the regular schedule.)

- **Fix the current incorrect behavior**

- Current issue: when splitting manually, system shows **₹20,000 extra payable** by customer.

- Required fix: customer's payable schedule must not exceed Grand Total.

- **UI requirement**

- Show Retention as a separate row/line in the payment table:

- “Retention Amount (held back)” = ₹20,000 (auto)

- Third payment row should clearly show “Net payable after retention”.
