- Category structure issue: Only 'Express' and 'Expand' should be visible as primary style categories. Accessories, services, lights, stone, handles etc. should fall under these, not as separate categories.

- Expand category – Kitchen (Wet/Exposed): Kitchen wet/exposed spaces are not visible or selectable under Expand, while they work under Express. Mapping issue to be fixed.

**Step 1: Select Unit Type**

Choose the type of unit you're adding

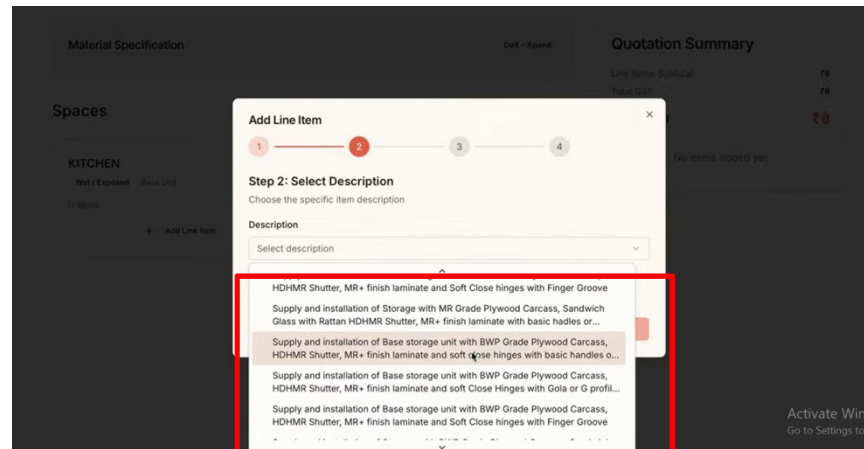

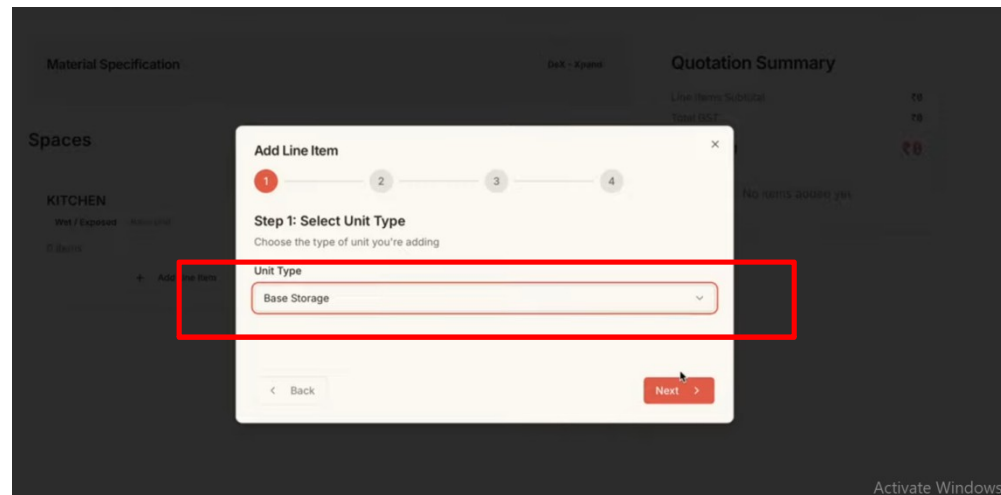

Unit Type

Select unit type

No unit types available for this category/room type

< Back Next >

- Unit type filtering issue: After selecting a unit type (e.g., Base Storage), unrelated line items (wall, tall, etc.) are also displayed. Only relevant items must appear.

- Missing selection flow: After unit type selection, the next step should be 'Select Finish' instead of directly showing descriptions.

The screenshot displays a software interface with a dark background. A central modal titled 'Add Line Item' is open, featuring a progress bar with four steps: 1 (pink), 2 (red), 3 (grey), and 4 (grey). Step 2 is the active step, titled 'Step 2: Select Description' in blue text, with a sub-instruction 'Choose the specific item description' in red. Below this, there is a 'Description' label and a dropdown menu with the placeholder text 'Select description'. At the bottom of the modal are two buttons: '< Back' and 'Next >'. The background interface includes sections for 'Material Specification', 'Spaces' (with 'KITCHEN' and 'Wet / Exposed' options), and a 'Quotation Summary' table showing 'Line Items Subtotal' and 'Total GST' as ₹0. An 'Activate Windows' watermark is visible in the bottom right corner.

- Only user-facing finishes like smooth, glossy, glass variants should be shown.

- Handle selection step missing: After finish selection, a mandatory step to select handle type (Basic, Finger Groove, G-Profile) should be added.

The screenshot displays a software interface with a dark background. A central modal window titled 'Add Line Item' is open, featuring a progress bar with four steps. Step 2, 'Select Description', is the current active step, indicated by a red circle and a red line. The modal contains a dropdown menu labeled 'Description' with the placeholder text 'Select description'. Below the dropdown are 'Back' and 'Next' buttons. The background interface includes a 'Material Specification' section, a 'Spaces' section with a 'KITCHEN' category, and a 'Quotation Summary' section showing 'Line Items Subtotal' and 'Total GST' as ₹0. An 'Activate Windows' watermark is visible in the bottom right corner.

- Description filtering: Based on finish + handle selection, only matching descriptions should be visible to the user.

The screenshot displays a software interface for adding a line item. A modal window titled "Add Line Item" is centered, featuring a progress bar with four steps: 1 (selected), 2, 3 (active), and 4. Below the progress bar, the heading "Step 3: Enter Dimensions" is followed by the instruction "Provide measurements and quantity". Three input fields are provided: "Length (ft)" with a value of 0 and a spinner icon, "Height (ft)" with a value of 0 and a spinner icon, and "Quantity" with a value of 1 and a spinner icon. At the bottom of the modal are "Back" and "Next" buttons. The background interface includes a sidebar with "Material Specification" and "Spaces" sections, and a "Quotation Summary" table on the right.

- Supply and installation of Wardrobe unit with BWP Grade Plywood Carcass, HDF Shutter, Smooth finish laminate and soft close hinges with basic handles or knobs
- Supply and installation of Drawer Storage with BWP Grade Plywood Carcass, HDF Shutter, Smooth finish laminate with basic handles or knobs

- Accessories workflow: Room type, dimensions, and unit details should be removed for accessories. Accessories should behave as ready-made products.

The screenshot shows a software interface with a dark background. In the center, a light-colored dialog box titled "Add Space / Room" is open. The dialog has a close button (X) in the top right corner. It contains the following fields and options:

- Room Name:** A text input field with the value "Accessories".
- Room Type:** Two radio button options: "Wet / Exposed" (unselected) and "Dry / Inexposed" (selected).
- Unit Group Name (Optional):** A text input field with the value "e.g., Wardrobe Units".
- Style Category:** A dropdown menu with "Accessories" selected.
- At the bottom right of the dialog are two buttons: "Cancel" and "Add Room".

In the background, a "Quotation Summary" table is visible, showing items like "Woodworks", "Subtotal", "Setup (50)", "Discount (50)", "GST (18%)", "Woodworks Total", "Installation", "GST (18%)", "Grand Total", and their respective amounts in Indian Rupees (₹).

The screenshot shows a software interface with a dark background. In the center, a light-colored dialog box titled "Add Line Item" is open. It has a close button (X) in the top right corner. At the top, there is a progress indicator with four steps: 1, 2, 3, and 4. Step 3 is currently active and highlighted in red. Below the progress indicator, the text "Step 3: Enter Dimensions" is displayed, followed by the instruction "Provide measurements and quantity".

The dialog contains three input fields:

- Length (ft):** A text input field with the value "2".
- Height (ft):** A text input field with the value "2".
- Quantity:** A text input field with the value "1".

At the bottom of the dialog are two buttons: "< Back" and "Next >".

- Accessory pricing error: Changing dimensions alters pricing incorrectly. Accessories should depend only on quantity.

- General rule required: Dimension-based calculation should apply only where applicable; ready-made items should be quantity-only.
- Logic For woodwork (Xpress & Xpand) : Finish → Handle → Description → Dimensions → Quantity → Auto-calculated total should be a standard flow across modules.
- Logic For Accessories : Product Description → Quantity
- Logic For Civil Service: Description → Dimensions → Quantity →
