Project Wallet	Wallet Funded	Wallet Balance
1200000	50000	1150000

Project Wallet = Total final project value (auto-captured by system)
Wallet funded = Recieved payment as per milestone (manually updated by user)
Wallet Balance = Project wallet - Wallet funded (auto-calculated by system)

S No	Request type	Stage	Requested to	Allocated Credits
1	Project Initiation	Upon advance payment	Admin	1000 Credits
2	Project top-up	Upon additional payment	Admin	500 Credits

The architect must not be able to request any additional credits via platform beyond 1500 credits. If need be only the admin should be able to add more credits via adding project top up for second time and the max cap of credits for admin to add is 2000 credits (Once via project initiation and twice via project top-up)

Further stages update	
Milestone	Auto credit deduction
Site Documentation	150
Layout Finalisation	200
Design Finalisation	150
Validation (GFC Drawings)	150
Final Design Sign-off	200
Total Milestone Consumption	850 credits
Buffer	150

Additional dropdowns	Credits Consumed
Layout Change (per room)	75
Design Revision (per room)	50

Upon exhaustion of 1000 credits follow request type 2
