

Even after deleting the line items from the master file, they are still reflecting in the software.

Even after deleting the line items from the master file, they are still reflecting in the software. In both the Xpress and Xpand variant it is showing

Designer CNC

Drawer Storage

Glide Line Wardrobe

I've added a new finish for the **Xpand variant**. The **unit type is reflecting correctly**, but the **finish is not showing in the software**.

Once the quotation is finalized, the discount values should no longer be editable. However, even after the project has been finalized, the system is still allowing the discounts to be modified.

In the Pricing Adjustment section for all projects, the line item subtotal is not updating even after applying a discount.

For example, when the discount is set to 0%, the line item subtotal shows a certain amount, and even after applying a 10% discount, the line item subtotal still remains unchanged instead of reflecting the revised discounted value.
